Modular Table Top Display MTT - The compact solution for hot grab-and-go food

Maximum transparency for the best view of your food, premium hot holding technology for a long product shelf life and a compact design that fits in anywhere: Meet Fri-Jado's Modular Table Top Display MTT. The MTT is the ideal compact solution to boost your profits from packaged grab-and-go products, while saving up to 50% on energy consumption and costs.

Equipped with premium Hot Blanket holding technology, the MTT keeps your food safe and delicious for longer. A combination of energy efficient hot air recirculation per shelf and mild shelf heating fully encloses the products and keeps them at consistent core temperatures.

The Multi Temp feature of the MTT allows you to set temperatures individually for each shelf, in order to fine-tune the holding conditions for hot products from different food groups.
