Integrated Hood

Space\$aver™ and Space\$aver™ Plus

FSH 605 Electric
FSH 610 Electric

FSH-610 Space\$aver Plus
combi oven with integrated hood

The Henny Penny integrated hood option for Space\$aver and Space\$aver Plus combis offers a low-cost venting solution that gives operators the flexibility to position combi cooking anywhere there is not a dedicated ventilation system.

This lightweight integrated hood is mounted directly to Space\$aver FSH 605 or Space\$aver Plus FSH 610 combi and recirculates air through four filter levels. No additional external venting required. Powerful two-speed blower draws in smoke, odors and condensation through the 4-level filter system and returns fresh air to ambient conditions. Hood ON/OFF and fan speed are controlled from Chef's Touch control.

Guests and crew will experience a more pleasant environment, free of odor and grease-laden vapor.

Dimensions hood only

Height 19.00 in (483 mm)
Width 22.00 in (557 mm)
Depth 33.63 in (855 mm)

Ambient climate

140–270°F (5–40°C)
95% relative humidity non-condensing
