

CC Chloramine Carbon System

CC-420
Chloramine
Carbon System

Increase the quality of your water with the CC-420 Chloramine Carbon System from VIZION™. Designed for use by itself or after a VZN ultrafiltration system, the CC-420 reduces chloramines and removes objectionable tastes and odors.

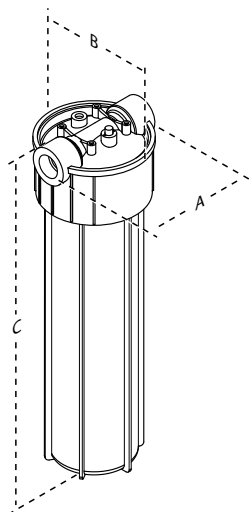

The CC-420 system has 1" NPT inlet and outlet connections. The system includes a chloramine cartridge, 20" housing, mounting bracket, and filter wrench.

Features

- Reduces chlorine, chloramines, bad taste and odors.
- Improves taste of beverages.
- Provides clean ingredient water.
- Low pressure drop.
