FEATURES

- ✓ The motor is very well insulated to avoid any water or grease contact.
- ✓ The back burner body can be moved back and forth to cook faster or slower.
- ✓ The skewer can be leaned towards or away from the burners to cook top or bottom of the cone faster.
- ✓ Provides easy cleaning, excellent look, healthy and uniform cooking experience.
- ✓ Unique design allows the motor to keep rotating during slicing without any stress on the motor.
- ✓ The drain valve allows for excess oils to be poured hassle-free.
- ✓ The motor can be rotated in either clockwise or counter-clockwise directions.
- ✓ Heat shields on both sides helps to preserve heat and save energy.
- ✓ The meat base on the skewer is adjustable to allow cooking small or large cones.
