

Electric Water Pan

- Durable and rust-resistant polypropylene construction for long-lasting performance
- Flame-free hot holding solution helps to keep food warm during service.
- Heats and keeps water up to 185°F/85°C; meets and exceeds HACCP food-safe reheating and hot-holding temperature requirements.
- Thermostat knob on the control panel helps to adjust temperature while in use.
- Maximized versatility allows for operating by itself or pairing with other full size chafer frames.
- Compatible with standard GN pan (sold separately).
- ETL listed; meets and complies with electrical safety standards in the U.S.A. (UL-197) and Canada (CAN/CSA-C22.2)
- One-year warranty
