- Detailed instructions and specification on cleaning and application to best maintain your equipment
- A national service network and service manuals for our extensive product offering.

TRAY DRYING RACK

APPLICATION

The Alluserv tray drying rack can support any tray line layout. These drying racks are designed to provide a convenient and organized method of drying and storing trays for meal assembly. This rack has 40 slots per shelf (120 trays).

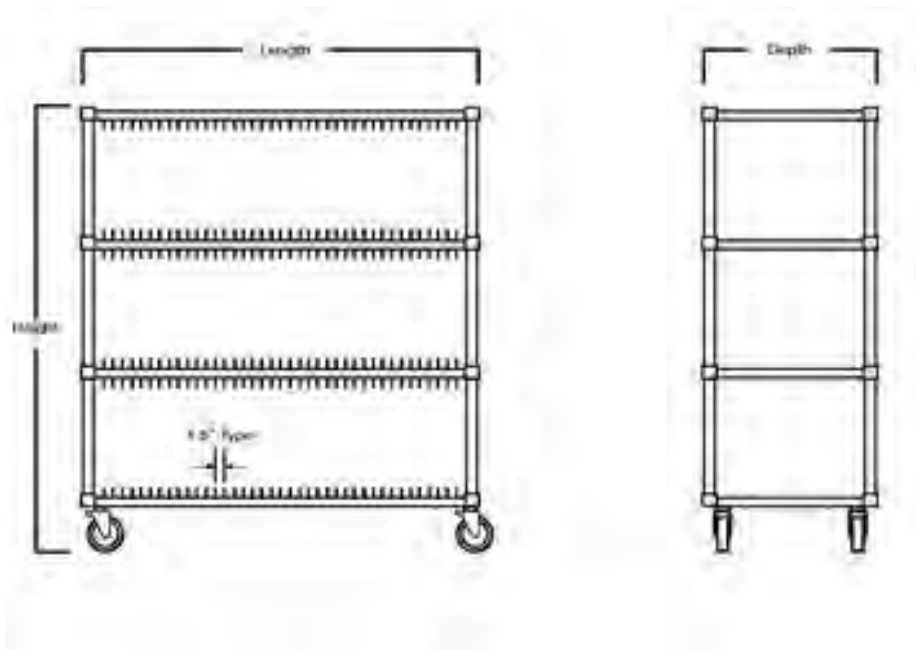

CONSTRUCTION

The shelf frames on the Alluserv drying rack are constructed of 1-1/2" round corner tube and 1-1/2" x 2" tube that is welded to four heavy duty extruded aluminum collars to accommodate the post uprights. A set of stainless steel screws is provided in each collar to lock the shelf at the desired height on the uprights. The uprights are extruded aluminum pipe with an O.D. of 1-5/16" and a wall thickness of 5/32". Each post is marked in 3" increments and fitted with a plastic cap in each end. Rack shall be mounted on four 5" non-marking casters. For freight savings the unit will be shipped "knocked-down" and is easy to assemble.

Warranty

- Two years parts and one year labor
