## Stainless Steel Waste Receptacle

Our Stainless Steel Waste Receptacle is made from long-lasting, heavy gauge stainless steel with a smooth satin finish. The waste receptacles ample sized leakproof 12-gallon waste container is ideal for high traffic areas such as public bathrooms. Inside the wastebasket is two stainless steel clips to ensure the trash bag is secure throughout the day. Each waste container is furnished with a tumbler lock key to prevent any unauthorized access. Our finish can withstand everyday wear and tear and cleans easily using general cleaners.
