

MODEL: FMSX

• To be used only with Combistar FX Ovens in convection heat mode

FMSX + FX101E3

## SMOKERSTAR FMSX – for COMBISTAR OVENS

**Accessory, External Smoking Unit for the FX Combi Ovens**, with analog controls, that produce smoke when the FX works in convection heat mode.

With the FMSX it is possible to fill the cooking cavity with hot or cold smoke and infuse that flavor into selected items.

The FMSX is supplied with a special connection pipe, between the smoker, placed on the FX, and the standard exhaust pipe coming out on the FX itself.

The FMSX can be easily disconnected or connect with the FX by the operator.

The FMSX is provided with a drawer, to contain wood chips.

The electric heat exchanger, that produces the smoke in the FMSX, can be manually controlled by the front oven knob.

Two indicator lights.

Construction in AISI 304 stainless steel.

Rock Wool ceramic fiber thermal insulation.

Height adjustable feet.
