Multi-Purpose Ventless Hood Electric Fryer Model WOG-MP-VH

The **WOG-MP-VH Electric Ventless Hood Fryer**, features a large-capacity square vat and plenty of power. Rapid temperature recovery can effectively shorten frying cycles to deliver more turns per day, delivering tasty results and maximizing profits with minimal effort and expense.

- Giles' proven integral ventless hood system requires no venting to outside and, generally, may allow operation where conventional ducted vent hoods are impractical or prohibited. Listed to **UL-KNKG (-7 Canada)**, **complies with ANSI/UL-197 & ANSI/UL-710B**.
- Build-in hood filter cleaning notification timer ... helps operators maintain optimum hood performance.
- Equipped with self-contained **Ansul® R-102 Wet Chemical Fire Suppression**; including piping, discharge nozzles, detector link brackets/conduit, Automan mechanism, fire damper, in-cabinet manual actuation pull, and stainless steel chemical tank. **Final field set-up, testing and certification by an Ansul® distributor/dealer is required ... not included, customer provided**.
- **20 kW** of cooking power to handle all of your menu needs ... french fries, chicken, seafood, veggies and more.
- Intuitive computer controller; features dual basket timers, programmable cooking presets for fifty (50) different menu items, **COOL MODE**, **FORCE-FILTER** control, **BOIL-OUT** program, multiple language selection and password control.
- On-board oil filtration system with robust 1/2-hp pump.
- Heavy-duty casters ... front w/locking brake.
- Durable all stainless steel construction.
- Needs less than 87" of ceiling height ... designed to occupy minimal floorspace.
- Optional Giles **KitchenTrac™** WiFi remote monitoring is available for this model.

Ventless Hood System: Proven 3-stage air cleaning with built-in fire suppression system.

- [1] Stainless steel Baffle Filter removes a portion of the grease from cooking vapors.
- [2] Electronic Air Cleaner (EAC) electrostatically captures finer grease particulate on collector plates.
- [3] Disposable Charcoal Filter helps to control cooking aromas in the recirculated air.

On-Board Oil Filtration: Robust 1/2-hp pump can complete a filter cycle in 5 minutes. Uses a stainless steel filter screen (*filter paper can be used as alternative*). Single step drain, crumb flush and oil filtering. Turn of a single valve refills vat with reconditioned oil. When used properly, cooking oil life can be increased by at least 50%.

Optional WiFi Remote Monitoring: Monitor your cooking appliances remotely with Giles' **KITCHENTRAC™**. WiFi connects the fryer to a web server which provides analytics for your fryer activity, utilization and performance. View from any internet connected device. **Activation and subscription fees apply.**

IMPORTANT INFORMATION !!

Orders for **GILES Fryers w/Integral Recirculating/Ventless Hood** will not be accepted until Giles verifies, 1). that the Purchaser has received all necessary approvals from local authorities, and 2). that the Purchaser is aware of specific installation requirements & limitations, as stated in the **GFSE Recirculating/Ventless Hood Approval Letter**, which must be adhered to during installation. The **GFSE Hood Approval Letter (HAL)** must be completed, submitted along with any requested documentation, and approved by Giles prior to order acceptance. The document is available for download at www.gfse.com under the **SUPPORT** tab in **VENTLESS DOCUMENTS**.
