

Convenience is best served cold.

Ideal for concession stands, ice cream shops, and more — drop-in freezers are a smart solution for storing frozen treats. The unit's fitted flange design seamlessly integrates into your countertop for fast and easy accessibility. Integrate your frozen desert program into any operation using Silver King drop-in freezers.

- Environmentally friendly R290 refrigerant
- Integrated design
- Heavy-duty construction
- Easy to clean
- High-density insulation

The global ice cream market has seen continued growth the past decade thanks to tasty category innovations in flavors and applications. Whether you run a convenience store, ice cream parlor, or diner, a drop-in freezer makes serving a variety of highly profitable ice cream options more accessible than ever.

Eco-Friendly Refrigerant

All Silver King equipment features R290 refrigerant, one of the most environmentally friendly choices with a global warming potential (GWP) of 3. R290 is proven safe, readily available, and familiar to service teams.

Integrated Design

The fitted flange design ensures the fit for any countertop installation. Its low-profile top and easy access lids offer a clean aesthetic to your operation.

Heavy-Duty Construction

Designed for the harshest environments with a stainless steel exterior plus galvanized lower cabinet and base to reduce the risk of corrosion.

Easy to Clean

Take the mess out of clean-up thanks to the stainless steel interior with coved corners and finished edges.

High-Density Insulation

Foamed-in-place, CFC-free polyurethane insulation keeps cold air in while strengthening the unit – improving overall cost savings.
