

BVDS-C2

BVDS-C2FT

### Cold Beverage Dispenser

- The mirror-finished stainless steel lid, ice core, and base enhance aesthetics and ensure long-lasting use.
- Crafted from Acrylonitrile Styrene (AS) plastic, the transparent container showcases beverages, while easy tracking of liquid levels is possible.
- The removable center ice core keeps drinks chilled without dilution, maintaining their original flavor.
- With a 7-1/8" faucet clearance height, various glass sizes can be accommodated for hassle-free serving.
- Components disassemble easily for thorough cleaning, and the modular design enables space-efficient storage.
- Crafted from BPA-free materials, the dispenser prioritizes your safety.
- Extend the dispenser's lifespan with a separately available replacement faucet.

### Rectangular Beverage Dispenser

- The translucent polypropylene body allows for easy monitoring of beverage levels and features quart and liter indicators along with a maximum liquid indicator to help prevent overflow.
- The leak-resistant faucet with an 8" clearance height ensures a smooth and controlled pour, minimizing spillage and waste.
- Ideal for a variety of beverages, from refreshing iced teas and fruit-infused waters to chilled juices and party punches; pre-printed and blank labels included for easy identification.
- Components disassemble easily for thorough cleaning; the modular design enables space-efficient storage.
- Crafted from BPA-free materials in compliance with NSF standards, this dispenser prioritizes your safety.
- Replacement faucet and drip tray are available for purchase separately.
