Digital Electronic Controller

Adjustable Legs

**Durable Construction**

The CE52PESC is built with *prime 20-gauge cold-rolled top and sides* with a 14-gauge base. The *interior is made of Armco Type 1, 20-gauge aluminized steel*. The CE52PESC comes standard with stainless steel front, or optional all stainless steel finish. The stainless steel is made of high quality, 18-gauge 430 stainless; the door interior is 18 gauge stainless.

**Energy Efficiency**

The CE52PESC is powered by eight (8) 2,000w elements which *increases its efficiency and recovery rate*.

**Capacity**

*The CE52PESC deck size measures 42"x32"x12" (2).* Actual cooking capacity depends on the size of the pizza you are cooking. The CE52PESC will hold twelve (12) 12" pizzas or eight (8) 16" pizzas. Cooking time will vary according to product, but will average between 8-10 minutes.

**Space Saver**

The CE52PESC requires *less installation space* than our competition. This enables you to free up valuable kitchen and/or hood space. The actual width needed is mere 56" for two **42"x32" decks**, almost a foot less than the competition.

**Design Plus**

The CE52PESC has digital *controls on the side for ease of operation and space savings*. This also places the controls in their own *air-conditioned area* so they are not affected by outside influences.
