

... About ITV Ice Makers

True ice lovers are very "selective" when it comes to choosing the type of ice that they desire and enjoy and therefore deserve the highest of quality of ice making equipment when selecting their ice machines, which means ITV Ice Makers.

ITV Ice Makers, Inc. has manufactured the most requested ice machines for worldwide use since 1981, and now supplies the North American market with the finest quality of ice for the most discerning of customers.

Enjoy a variety of ITV ice cube types including the "SPIKA", "ALFA" and "GALA" series, and flaked ice with the "ICE QUEEN" series. You will find a vast range of under-the-counter, self-contained, modular and remote designed units to satisfy any and all of your ice needs.

ITV's "Ice Queen" flake ice series has been specially designed to meet each type of demand. Under-the-counter/self-contained models, producing up to 360 Lbs. of ice per day, are perfect for sushi, cocktail bars, health care facilities, sports centers or spa applications. ITV's Modular and Remote models, producing up to 2,860 Lbs. per day, focus on more substantial requirements needed for super markets, grocery stores, fisheries and marinas.

You can complement your ice production needs, for your modular or remote ice maker, with one of ITV's heavy duty stainless steel ice storage bins, from small (30" wide) to medium (52" wide) with 430 Lb. and 1,030 Lb. capacities.

With more than 30 years in the market, ITV ice makers have been designed and manufactured and is recognized as a world-renowned company, following four simple principles that address the needs of our customers:

QUALITY – RELIABILITY – SIMPLICITY – SERVICEABILITY

With a two-year parts and labor warranty, plus one additional year parts coverage on the compressor, on all ITV flake ice machines, you can readily identify the reasons why ITV's customers are happy.

Whatever your ice making needs, let ITV be the machine of choice!!
